> *Light, space and quiet, gathered under one roof, with a garden that asks you to stay a little longer.*

Extensively remodeled, this home lives with the ease of a single family residence. An open plan, bright and generous, is made for long dinners and good company. The kitchen pairs granite with real wood cabinetry and a gas range. A third bedroom with its own exterior entrance becomes a studio, an office, or a place for guests. Outside, a fully fenced garden with no rear park neighbors holds a workshop, a shed and a built in outdoor kitchen.
